LIFE GESTIRE 2020 - Nature Integrated Management to 2020.
La strategia integrata per Rete Natura 2000 e la biodiversità in Lombardia

Sostenuto da

Collaboration with

Support EUSALP

LIFE IP GESTIRE 2020

Implementation of the **Prioritized Action Framework (PAF)** in EU Natura
2000 Sites by:

- a) **Improving governance** of Natura 2000 Sites, also improving **Ecological Networks**
- b) **Maintaining and improving conservation status of habitats and species**
- c) **Raising awareness** on the value of the regional Natura 2000 Sites

*main European
planning for
biodiversity
conservation in
SACs/SPAs
sites*

ACTIONS of LIFE IP GESTIRE 2020

64 ACTIONS
Concerning **flora,**
fauna, habitat
conservation all over
Lombardy Region!

19 Preliminary Actions

21 Concrete Actions

16 Communication Actions

4 +4 Monitoring and Project Management Actions

...NEW SYNERGIES

LIFE IP GESTIRE 2020 **INVOLVED A NEW SYNERGY** with public bodies, and professional figures, stakeholders, experts in «biodiversity issues»:

ONG'S involved in biodiversity
conservation

Public bodies responsible for
surveillance

Professional figures (agronomists,
naturalists, biologists, etc)

Land owners

Managing bodies of protected areas

Governance

New professional figures: Technical Facilitators (TFs), experts with different tasks: (a) researching funding opportunities; (b) fostering the network between local and central authorities, the needs of the territories and the objectives of the institutions; (c) helping the stakeholders on drawing up biodiversity projects; (d) supporting Life Project Actions with specialists in botany, zoology, agro-economy, hydrobiology.

New synergies with public and private managing bodies

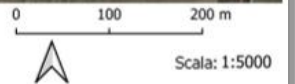

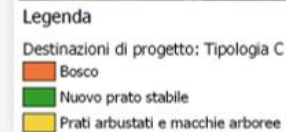

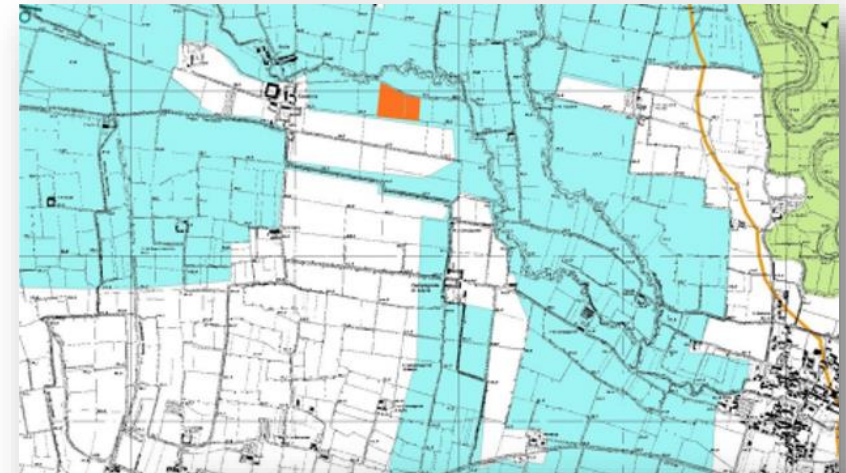

E.g. Contacts with private societies and managing bodies (E.g. consortium for the management of irrigation channels)

Ecological networks

Conservation of ecological corridors to conserve also
Natura 2000 Sites.

Even low budget projects can have huge impact

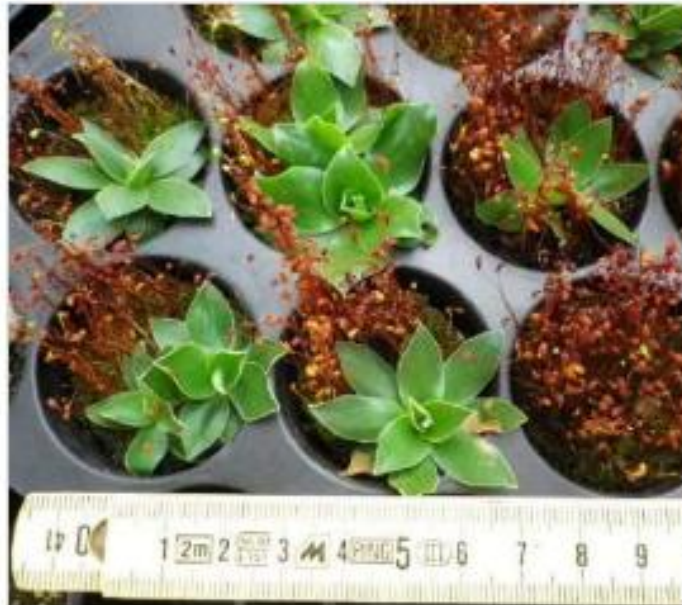

Involvement of professional figures far from biodiversity issues

E.g. Conservation of habitat 4030

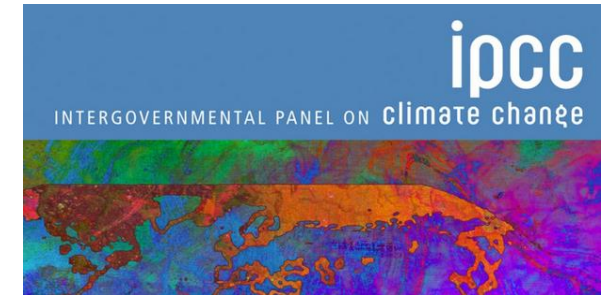

Public production chain – Lombardy Region – ERSAF – CFA (Native Flora Center) – Managing bodies of Natura 2000 Sites
E.g. cultivation of species in European Directive, reinforce/reintroduction *in situ*

...ISSUES WE WANT TO SHARE

Biodiversity strategy for 2030

...AFTER 8 YEARS OF
ACTIONS AND PLANS, WE
WOULD SHARE THE
PRINCIPAL ISSUES WITH
TWO IMPORTANT ALPINE
PROCESSES

A European Green Deal
Striving to be the first climate-neutral continent

Nature restoration law

CROSSROADS BIODIVERSITY WORKSHOP

3 objectives

To share experiences
good practices and
problems

To promote exchanges
and networking

To learn from the
experience and leave a
legacy

Strategic Nature Project (SNAP)
NATCONNECT 2030 PROJECT

CROSSROADS BIODIVERSITY MESSAGE
